

BIOLOGISCHES KOLLOQUIUM im SS 2019/20

Donnerstags 17 Uhr c.t. im Hörsaal 02, Geb. B2.1

- 09.05.2019 **Dr. Thomas Sexton**, IGBMC, Illkirch/Straßburg, France: „3D genome folding and transcriptional regulation“
- 16.05.2019 **Prof. Dr. Elke Deuerling**, Molekulare Mikrobiologie, Universität Konstanz: „Protein Folding and Transport in the Cell: Chaperones Acting at Central Hubs of Proteostasis“
- 23.05.2019 **Prof. Dr. Joel Yisraeli**, Developmental Biology & Cancer Research, IMRIC, Israel: “Fibrosis and dilated cardiac hypertrophy - the surprising role of an RNA binding protein in the heart”
- 06.06.2019 ~~**Prof. Dr. Marinus Pilon**, Department of Biology, Colorado State University, USA: “Metal cofactors in chloroplasts”~~ **entfällt, wegen Erkrankung**
- 27.06.2019 Hörsaal belegt
- 04.07.2019 **Prof. Dr. Chris Meisinger**, Institute of Biochemistry and Molecular Biology, Universität Freiburg: “Cellular protein traffic: Signalling pathways regulating mitochondrial protein import”
- 11.07.2019 **Prof. Dr. Christine Falk**, Institut für Transplantationsimmunologie, MHH Hannover: "Human lung transplantation: a model to study tissue-resident immune cells"

20. Mai 2019

**Dieser Vortrag
beginnt um 12:00 Uhr!**
